Built heights – floor-level, accessible, flat and low-build shower solutions for your bathroom

### 24/25 COLOURS

Inspiration and infinite colour variations

### 26/27 SURFACES

Texture and surface finish for maximum safety underfoot

For over 100 years KALDEWEI has been setting bathroom trends – always keeping a sharp eye on important developments and with a great feel for the changing role of the bathroom.

While multifunctional bathtubs were most in demand at one time, now what people most want from their bathroom is individuality. And it is creative shower surface solutions, first and foremost, that have become increasingly popular. That makes it all the more important to seek inspiration and explore both material and design.

In the new KALDEWEI Magazine Shower Surfaces and Shower Trays, we would like to share a few sources of inspiration and newly-developed shower surface solutions with you that we love and which give us motivation.

Our mission is to help you transform your bathroom into a highly individual wellbeing sanctuary and retreat and enhance it with a floor-level shower. If we also bring in sustainability and use high-tech materials when designing that bathroom the end result can only be exceptional. Of timeless beauty, unique comfort and superior functionality, our objects are most certainly the best choice for a dream shower surface that you will love – particularly in terms of hygiene.

So raise your sights! And look forward to taking your bathroom to the next level!

Franz Kaldewei

**OUR STEEL ENAMEL'S BEST QUALITIES AT A GLANCE**

**It always keeps its shape**  
Even with high temperature fluctuations, KALDEWEI steel enamel stays in shape.

**Surface protection – for a lifetime**  
Perfume, wash gels, cosmetics, nail varnish, shampoos, standard domestic cleaning agents, chemical and natural hair dyes – KALDEWEI is immune to virtually everything.

**UV resistant – dazzling colour**  
Thanks to our unique, colour- and light-fast KALDEWEI steel enamel, your shower surface will always retain the colour that you chose originally.

**100 % sustainable – the greenie among bathroom objects**  
Glass and steel form the basis of KALDEWEI steel enamel. Both are natural raw materials and are 100 % recyclable. That's real sustainability.

**Scratch and shock proof – really tough**  
No matter what hits your KALDEWEI – be it shower gel bottle, shaver or hairbrush – it will always remain flawlessly beautiful.

**Heat resistant – inclusive of fire protection**  
Cigarettes, matches or candles – your KALDEWEI is resistant to fire and scorch marks.

**Easy to clean and hygienic – non-porous and pure**  
The vitreous surface offers you optimal, overall protection against viruses, dirt and bacteria. It is absolutely hygienic and also easy to clean. Virtually as clean as you can get!

## BURNING WITH PASSION

**Matt or polished. Coloured or white. Drawn as a bathtub or shaped as a shower surface. KALDEWEI steel enamel lasts – for a lifetime. Stays as beautiful as on day one.**

### FIRSTLY, THERE WERE STEEL AND GLASS

We don't only pay lip service to sustainability. We live it and we produce it. Proof of that lies in the natural raw materials of glass and steel which we use to make our bathroom objects. Two authentic, natural materials with unique material properties. Steel signifies strength, toughness, robustness and ductility. Glass has a superbly luxurious look and is ultra resistant to chemical and thermal stress. KALDEWEI steel enamel combines robust steel and resilient glass to form an inseparable bond harnessing the strengths of each material in perfect symbiosis.

### MASTERLY PERFECTION

The basis of this symbiosis is KALDEWEI steel enamel's unique formula. It is a formula that we have developed ourselves – the only manufacturer worldwide to do so – and which we still use to exclusively produce our own steel enamel. In our own furnaces at our principal plant in Germany.

### TODAY WE ARE ALREADY THINKING ABOUT TOMORROW

KALDEWEI steel enamel – the most sustainable, best and most resilient material for your shower surface. And to ensure it stays that way, we are applying our decades of expertise to continuously develop our formula and our manufacturing techniques: to produce groundbreaking innovations such as ultra anti-slip finishes and a never-ending selection of new, compelling colours. Discover the fascination of our KALDEWEI steel enamel for yourself! We know you'll love it. Today and tomorrow.

## TRADITIONALLY VISIONARY

**A bathroom is a living space. For restoring our strength and recharging our batteries. For refreshment, recovery and relaxation. And it is a decision. A statement which reflects who you are. Your lifestyle, your life philosophy. Today and tomorrow. Sustainable.**

### TRADITION

We are a family business with deep roots: the fourth generation of this family is now developing and manufacturing superb bathroom objects of superb quality. And we've had the same mission for over 100 years: to create perfect solutions using excellent materials and iconic design that meet the highest standards and will suit any room layout.

### PASSION

Whether shower surface, bathtub or washbasin, steel enamel is our raw material, and passion is what drives us: for the greatest precision, for a timeless aesthetic and for the technical challenges that we master as pioneers. This passion is what has set our employees apart for generations. They have made us into a byword for long-lasting bathroom objects. Only they are in a position to meet our demanding standards of product, design and manufacturing quality. Yesterday, today and in future.

### SUSTAINABLE

If, like us, you have been transforming natural raw materials into long-lasting, timelessly beautiful products for over 100 years, and think in terms of generations, sustainability is firmly and inextricably enshrined in your DNA. Simply consider that our enamelled steel is the most future-proof material for bathroom products given that it can be 100 % recycled and itself contains 20 % recycled steel. Naturally, we take an equally consistent approach to conserving resources for production and transport. For the protection of our environment and with an eye to future generations.

### AWARD-WINNING

In 2017 we received one of the most prestigious sustainability awards for ecologically outstanding products and buildings – the “Green Good Design Award” – in recognition of our commitment to resource conservation. For us, this is a further step on the road to the future. We are consistently sticking to that path, now being the first in our industry to have each of our products certified to meet the criteria of the German Sustainable Building Council (DGNB).

### DESIGN

The proof that alongside quality and sustainability we also set great store by immaculate beauty, is evident from our over 150 awards such as the Red Dot Design Award, Plus X Award, Iconic Awards, Interior Innovation Award and IF Product Design Award. Thanks to you, we are one of the most garlanded manufacturers of bathroom objects in the world. Our designers devise products, looks and shapes that lend your bathroom its distinctive character and timeless beauty.

### FIVEFOLD EXCELLENCE

#### **KALDEWEI steel enamel – a superior material**

Natural, long-lasting, smooth and heat-conducting – we provide you with bathroom objects of lasting value and immaculate beauty.

#### **KALDEWEI product promise – guaranteed premium quality**

We are one of the very few manufacturers who offer you a 30-year guarantee\* on each of our products.

#### **KALDEWEI Design – timelessly beautiful**

Our multi award-winning design extends to the tiniest detail and is geared to your needs, your style and your dream bathroom.

#### **KALDEWEI bathroom systems – flexible solutions**

Our solutions are designed for bathrooms of every size and can be adapted to meet your individual needs, be it in terms of colour, dimensions, shape or function.

#### **KALDEWEI means lasting value – sustainably compelling**

Our bathroom objects are made to last forever. So that you can enjoy unforgettably beautiful and relaxing baths and showers for generations to come.

CAYONOPLAN MULTISPACE: 120 cm x 120 cm

reddot winner 2020

## A SPACE-SAVING MIRACLE – CAYONOPLAN MULTISPACE

**Award-winning and made to last forever: recognised with the Red Dot Design Award, this shower surface is the accessible, robust and perfectly-fitting alternative to a tiled shower.**

The KALDEWEI CAYONOPLAN MULTISPACE is made not only for showering but can also be used as part of the normal floor surface. Certified in Germany to the DIN 18040-2 accessibility standard. Installed at floor level, it can be integrated into your bathroom seamlessly and with no tripping hazards, proving itself a truly miraculous space-saver even in the tiniest of rooms. On top of that, it offers you complete security against water damage and comes in lots of great colours.

Joints in which bacteria and dirt can accumulate are a thing of the past. The KALDEWEI CAYONOPLAN MULTISPACE combines outstanding design and safety in the bathroom, and will give you pleasure for many years to come. The round waste outlet is positioned centrally – in contrasting chrome or enamelled in the same colour as the surface. A permanent ornament in any bathroom, big or small.

## IMMACULATELY BEAUTIFUL

For a refreshing start to your day in the morning. A cleansing way to wind down in the evening after work, sport and leisure. By yourself. Or with someone else. Whenever and however you shower, we definitely have the right shower surface for you. Choose from 7 lines, 5 surface variations, 34 colours and an almost infinite choice of different sizes to create your very own dream shower. Enjoy yourself!

### NEXSYS ↓

The most sublime shower surface solution since floor-level showers were invented: the narrow waste channel with its high-end design cover fits smoothly into the overall look of your shower surface.

The linear waste is positioned at the side, outside the standing space. The design cover in 5 different colours completes the upmarket look.

### XETIS ↓

The shower surface with integrated wall waste outlet offers you entirely new aesthetic design scope in that there is no waste outlet to disrupt the exclusive, homogeneous design of the seamless shower surface.

The waste outlet is permanently attached to the shower surface and disappears into the wall where it cannot be seen.

### CONOFLAT ↓

The enamelled waste cover slots seamlessly into the floor-level surface, producing an elegant concentric aesthetic with unlimited freedom of movement and perfect comfort underfoot.

The square waste outlet is positioned in the centre and enamelled in the same colour as the surface.

**SUPERPLAN PLUS** 

Minimalism in its most beautiful form with colour-coordinated enamelled waste cover for a coherent and harmonious overall design. The round waste outlet can be placed in the left or right corner – in contrasting chrome or enamelled in the same colour as the surface

**SCONA\*** 

The richly contrasting and sensual shape with sharp radii and curved details culminates harmoniously in a centrally-positioned, round waste cover – a truly eye-catching feature in any bathroom. The round waste outlet is positioned in the centre – in contrasting chrome or enamelled in the same colour as the surface.

**SUPERPLAN** 

The quintessential floor-level shower surface: extremely flat, elegantly designed and available in a huge range of sizes from 75 x 80 cm to 100 x 180 cm. The round waste outlet can be placed in the left or right corner – in contrasting chrome or enamelled in the same colour as the surface.

**CAYONOPLAN** 

The new way of entering the world of floor-level shower surfaces is called CAYONOPLAN. Thanks to its waste outlet at the side and the ultra-flat tray support for the easiest possible assembly, the CAYONOPLAN is the ideal solution. Equally easy to install on screed or tiles, floor-level installation is also possible.

\* In Switzerland only available from selected retailers

### FLOOR-LEVEL

With no tripping hazards, a floor-level shower surface merges perfect with your tiles, industrial screed, or stone or wooden floor. Accessible without barriers or steps for maximum freedom of movement when showering, even in the tiniest of bathrooms.

### VIRTUALLY FLOOR-LEVEL

With a virtually floor-level installation, slightly offset, a small contrasting edge makes your shower surface stand out and ensures optimal water run-off even if installed on concrete, stone, ceramic, wood, vinyl or marble. Ideal for remodelling and refurbishments.

### SHOWER SURFACE PEDESTAL

Elevated, tastefully raised, your shower surface is set apart from the bathroom floor instantly attracting attention – both as a design object and an eye-catching feature in your period bathroom. The ideal solution for upgrading your bathroom with one of our premium designer shower surfaces. The most beautiful way of showering.

## PURE SOPHISTICATION

**At one with your tiles or bathroom floor. Slightly raised for the slope. Whether you prefer floor-level, virtually floor-level or a shower surface with pedestal – we can offer you the best solution for all built heights. Inclusive of first-class assembly components in the shape of seals, sound insulation and installation products. We have developed each and every one of these high-end components specially for our premium KALDEWEI shower surfaces to meet your requirements in terms of form and function**

### WATERPROOF – THROUGH AND THROUGH

With our KALDEWEI sealing solutions you can effectively seal your silicon joints against moisture penetration. On walls, at the edges of the surface and on the floor – in short, in every direction. The most reliable protection against water damage.

### SILENCE PLUS – EXCEPTIONALLY QUIET

So that you can shower virtually noise free at any time of the day or night, we have developed our highly efficient noise insulation systems to meet the DIN 4109 and VDI 4100 standards. And your neighbours will be happy too. Ask your bathroom specialist about our DWS shower surface noise insulation kit and our DW-ADS anti-drone kit.

### PERFECTLY FITTED – INSTALLATION MADE EASY

Our clever and first-class KALDEWEI installation products perfectly complement our KALDEWEI installation frames such as our stable central-support systems to go with our XETIS, SUPERPLAN, SUPERPLAN PLUS, and SUPERPLAN XXL shower surfaces – optimised for the CONOFLAT line.

### FULL FLOW

Flat is in. Both for shower surfaces and for waste outlets. For new-builds and refurbishments. So that we can completely meet your wishes, we supply you with the waste fitting to match your shower surface and the room layout. With a matching cover or smart design cover. Rest assured, the water run-off will be excellent.

SECURE PLUS

Easy-clean finish

Anti-Slip

Full-Anti-Slip

SECURE+

## STANDING FIRM

**Surface finish – invisibly shaped into circles and rectangles. Centred or integrated across the entire surface. Fused with our unique KALDEWEI steel enamel. Our ANTI-SLIP, FULL-ANTI-SLIP and KALDEWEI SECURE PLUS finishes ensure that you can stand firm – from the moment you set foot in your shower oasis. Dry, damp or wet. For a non-slip shower experience.**

### KALDEWEI SECURE PLUS

The KALDEWEI Secure Plus enamelling we have developed is applied across the entire shower surface, ensuring that you don't slip when you shower. We offer you this enamelling in all 12 matt shades of the COORDINATED COLOURS Collection for all CAYONPLAN, CONOFLAT, SUPERPLAN, SUPERPLAN PLUS, SUPERPLAN XXL, SCONA and XETIS shower surfaces.

### KALDEWEI EASY-CLEAN FINISH

Thanks to our easy-clean finish, water simply rolls off the shower surface taking virtually all dirt and limescale particles with it. If any water marks or limescale remain despite the easy-clean finish, you can simply wipe them off with a soft damp cloth – no need for chemicals or harsh detergents. Which means this surface finish is also a good thing for the environment. The easy-clean finish is permanently annealed into the enamel surface of your KALDEWEI shower surface. It is incredibly robust, extremely long-lasting and available for all shower surfaces.

### KALDEWEI ANTI-SLIP

This textured finish is applied to selected points at the centre of the surface, guaranteeing extra safety underfoot in the shower. As with every surface, we coordinate the structured texture with the design of the waste cover – round or square. Because for us, beauty and safety are one.

### KALDEWEI FULL ANTI-SLIP

The full-surface version of our anti-slip finish ensures a safe footing wherever you are standing in the shower. To ensure the perfectly coordinated aesthetic of surface look and waste shape, here too we match the surface finish to the design of the waste cover. The result: a round or square-shaped all-over anti-slip finish applied across the entire shower surface.
