FORM FOLLOWS PERFECTION

Three words that change how we think, create and produce: Form Follows Function. It is a principle that equates to a revolution. No form and no function can be considered in isolation. What distinguishes AXOR is greater. Not ending the developmental process until there's nothing left to be added or removed. Until the product is more than the combination of form and function. With this aspiration in mind, we develop, design and produce taps, showers and accessories. For bathrooms and kitchens. With the world's best designers. Full of pioneering innovations without compromises.

AXOR QUALITY THE STRIVE FOR PERFECTION

Moving boundaries. Overcoming technological limits. Perfecting ground-breaking developments. To continually strive for perfection. AXOR the decisive extra. Combining state-of-the-art technology and craftsmanship. To turn ground-breaking products into reality. Enabling the ideas of globally renowned designers to find their perfect form.

Each product is a perfect image of the ideal. In the eyes of the most experienced AXOR experts. And in the inspection reports of the measuring devices.

HIGH-TECH CRAFTMANSHIP

AXOR FinishPlus surfaces have character. Each colour is the result of intense development. Finished in the AXOR vacuum chambers. Physical Vapour Deposition (PVD). An arc of light erupts in the high vacuum. Gases fuse with zirconium. The mixture is applied to the chrome surface of the product. A high-tech procedure. Adding amazing shine and colour to the surface.

FLAWLESS FINISHING

Up to 38 dives. Two hours. Exactly 0.4 µm chrome. Perfection in electrolytic bath galvanisation. Perfectly coordinated. With the necessary patience. For quality. Chrome adds glamour and shine to AXOR products. Durability. Desirability. Perfected through an exceptional instinct for finishing touches. Making surfaces gleam. Sensual to the touch.

HAND FINISHED BY EXPERTS

AXOR surfaces have depth. In particular, the polishing is a fine art. It is the many production paths which produce perfection in every form. Humans and machines join forces to prepare the way for avantgarde. Trendsetters for water design.

AXOR
STARCK
ORGANIC

SENSE AND SENSIBILITY

AXOR STARCK ORGANIC

Leading the way - not following the crowd. Modelled on nature. In its sheer beauty and efficiency, AXOR Starck Organic combines both in a resolutely avant-garde design. With a sculptural appearance. In sensually organic forms. In water design. In its minimalistic use of resources. As nature would have intended.

SCULPTURAL. ORGANIC

The extravagant floor-standing thermostatic bath mixer. With innovative controls. Water flow is regulated in the spout. The temperature is regulated via a separate handle. Energy-saving thanks to pre-set temperature. Sustainable and user-friendly for excellence.

AXOR CITTERIO

STRIKING AND BRILLIANT

AXOR CITTERIO

Luxury is not excess. It's an attitude. AXOR Citterio brings together the best in a single collection. Corners, edges and abundant surfaces. They set the perfect stage for the fracturing of light. Expansive radii. Forged with precision. These elements make the collection into a masterpiece of 1930s neo-classicism. And into a monumental design.

A MONUMENT. ON THE BATHTUB.

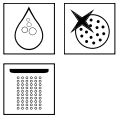

A design with angular and rounded shapes. With ultra-glossy surfaces and soft, perfectly crafted radii. Particularly striking: the handles. Angular. Precise. As cross handles. Or as lever handles. AXOR Citterio makes a striking statement. Charismatic appeal for the bathroom. This masterpiece is a true gem.

AXOR CITTERIO E

A SYMBIOSIS OF OPPOSITES

AXOR CITTERIO E

Harmony occurs in the calm balance of opposites. And thereby perfect beauty. As the Pythagoreans discovered in ancient times, the essence lies in finding the right proportions. AXOR Citterio E perfects the beauty of proportions, combining round and angular elements. With the new and the familiar. With the classic and the contemporary. Balanced right down to the last detail. In its design. And its feel. To create taps and showers of timeless elegance.

PERFECT PROPORTIONS. AT THE WASH BASIN.

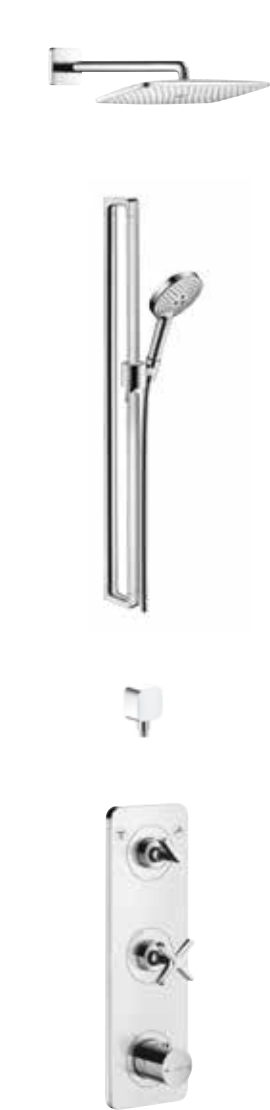

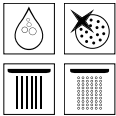

A symbiosis of opposites. Designed according to the laws of harmony. Which say that beauty is born of contrasts. The modern, tapering spout in combination with the classically designed tapered handle. A modern lever and traditional design. Contrasts in perfect harmony.

AXOR URQUIOLA

ECLECTICISM IN PERFECTION

AXOR URQUIOLA

An expert interplay between references and symbols. From different epochs. And different cultures. Consciously combining forms. To create something unique. AXOR Urquiola embodies that eclectic design principle. In form: unadjusted asymmetries and abundant surfaces. In finish: through intricately carved out details. Sensual yet functional. The fine art of blending styles. At all levels.

NON-CONFORMIST. EXTRAVAGANT. STYLISH.

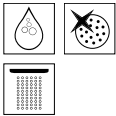

Down to the smallest detail. Immense radii on the handles. Combined with a clear basic structure. Surprising shapes, crafted with precision. Inside and outside. On every surface. On every rounded edge. Perfection you can feel. Always exciting to look at.

AXOR UNO

PURISM IN PERFECTION

AXOR UNO

Simplicity of forms. The aesthetics of construction. The original purists let things speak for themselves. AXOR Uno perfects purism. With pipes, the most elemental means of transporting water. Simplest design. Perfectly executed. Subtly raised to the golden ratio. This ascetic form exudes a unique radiance. At the wash basin. In the shower. At the bathtub. Radically functional. Radically purist. In perfection.

PURITY IN ITS FINEST FORM.

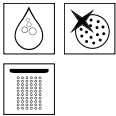

The innovative Select technology is perfection itself. It opens and closes the mixer at the touch of a button. Operation reduced to the bare minimum: on and off. Separate from the temperature handle. As with the single-lever basin mixer. With the operating button on the spout at the front.

AXOR MONTREUX

AUTHENTICITY IN PERFECTION

AXOR MONTREUX

The turn-of-the-century epoch. Symbolising a new departure, technical progress. A wealth of culture. Immortalised in the grand hotels of Europe. And in Montreux, the legendary spa resort at Lake Geneva. The AXOR Montreux collection is steeped in this same tradition. Mixers, showers and accessories – in the design of the first ever industrially manufactured bathroom fixtures. Classic low-spout or modern high-spout design. In combination with outstanding technology and functionality. With no compromises.

THE EVOLUTION OF INDUSTRIAL DESIGN

Authentic aesthetics. Like the turn of the century. Pipes connected with screw nuts. AXOR Montreux comprises of both: low spouts which hark back to the design of the first industrially manufactured mixers. And new iconic designs with high spouts.
