hansgrohe: modern design and refreshingly high-quality products

Showering perfection since 1901

With constant emphasis on the highest standards, our visionary concepts help make life in the bathroom easier, better and more beautiful. Our determination to enhance the beauty of water and every aspect of your experience knows no bounds. Innovation combined with brilliantly simple, ultra-reliable technology ensures we create timeless and sophisticated products. All over the world, hansgrohe is synonymous with high-quality products of exceptional design, ease of use and intelligent functionality.

Engineered in Germany

Since 1901, 'Engineered in Germany' has been a recipe for success for Hansgrohe as a shower and tap manufacturer. Over 120 years since the company's foundation, this level of German expertise is a guarantee of excellence. Every Hansgrohe manufacturing facility works to the highest standards through continuous quality management to ensure top performing products and service.

Our name is your guarantee

Always creating the highest quality products defines our approach to modern design, manufacturing and performance. 'Made by Hansgrohe' is your assurance of quality, backed by our five-year guarantee for repair, replacement or refund if ever any of our products fail to fulfil those high expectations that attracted you to the Hansgrohe name.

All products carry a minimum 5 year manufacturing guarantee.

Spare parts held for 15 years after product discontinuation.

Installing hansgrohe

- 74** Peace of mind from installation to enjoyment

Designed for life, realised by Hansgrohe

At Hansgrohe our philosophy of design is integral to everything you see and defines the standard to which others can only aspire.

Clever minds and new designs

Bathrooms are living spaces where we can feel comfortable and cultivate our own individual style. hansgrohe products are meticulously designed and manufactured to make them more attractive, more comfortable and more exhilarating. Working closely with a number of the world's most influential designers, Hansgrohe leads the bathroom industry in both aesthetics and performance.

Defining excellence

By collaborating with internationally recognised creative minds, we empower, endow, direct and define global design. Our showers, shower systems and taps have won more than 600 internationally renowned awards including in competitions organised by the universally respected International Forum Design (iF). Determined by independent judging panels, iF awards are among the most prestigious and largest in the design world.

Hansgrohe: quality that you can count on

At Hansgrohe we create top quality products that deliver in both form and function, so you can enjoy them for a long time to come.

We apply rigorous tests and stringent guidelines in our development and production, and that's validated by the independent testing institutes that attest to our high quality workmanship.

Quality is infused into every hansgrohe product

Before our products are ready for production, they have to prove themselves thousands of times in test cycles, stress tests, and field tests. Highly qualified employees see to meticulous quality assurance and quality management at every point.

Manufacturing quality

Hansgrohe relies on top-quality materials, high-tech design and precision work. But Hansgrohe understands "quality workmanship" to mean more than just the materials. It's the basis of our four pillars of quality: product, design, manufacturing and service.

All products carry a minimum 5 year manufacturing guarantee.

Spare parts held for 15 years after product discontinuation.

Our commitment to a sustainable future

At Hansgrohe, green is not just our company colour but a true reflection of how seriously we consider the environment we all live in and climate protection.

Sustainability is a goal we continually strive for. As a Hansgrohe customer, choosing any one of our bathroom products means you are championing long-lasting quality created using environmentally responsible production methods. All designed to help conserve our planet's valuable resources.

Lower emissions, lower costs

EcoSmart is our own innovative technology that is hidden within a selection of hansgrohe showers and taps. It ensures they consume up to 60% less water than conventional products without compromising your experience. Moreover, meaning lower hot water consumption and therefore reducing energy needs too. The end result? Lower carbon dioxide emissions and lower costs, good for the environment and good for your wallet.

A green light for today and tomorrow

At Hansgrohe, we continue to align our manufacturing facilities to meet ecological demands and set high environmental standards for ourselves. Whenever possible, we use technologies in production that save water, energy and other resources. So you can be confident that your hansgrohe bathroom products will function reliably and economically, having been built to last, using high quality materials manufactured in environmentally responsible conditions.

Experience the world of comfort

In over 140 countries globally, Hansgrohe has defined comfort through design, reshaping the culture of the modern bathroom. Headquartered at Schiltach in the heart of the Black Forest, we are represented on every continent.

All over the world, developers and investors work hand in hand with architects and planners on sophisticated projects. They are constantly in need of intelligent and aesthetically appealing solutions to maximise the beauty of water. hansgrohe showers and taps continue to define design and comfort in impressive hotels and public buildings, private residences, exclusive sports clubs, cruise ships and luxury yachts the world over.

Rainfinity: the ultimate in showering indulgence

Do you want an ultra-modern shower that pampers you with a glorious showering experience every day? Then enjoy a thoroughly relaxing pampering session with Rainfinity. This is the new hansgrohe shower range for those who seek to match luxurious design with exceptional performance.

Created through PowderRain, its spray types with differing intensities cascade through arched discs to deliver individual moments of indulgence and ultimate relaxation, guaranteeing a shower like you've never seen or experienced before.

All-round indulgent showering

Your bathroom is your personal feel-good space where relaxation takes centre stage. Imagine being cocooned from head to toe in ultra-soft micro-droplets in your shower – all-round indulgence and a thoroughly sensuous pampering experience that only a Rainfinity shower can deliver.

There's never been a nicer way to stand in the rain

A true forerunner in original design, Rainfinity is an optical extravagance. The large overhead and hand showers become a focal point within the bathroom with modern colourful finishes and the elegantly structured spray disc. Moving on from the conventional shower arm to the minimalist back plate which allows the head to tilt seamlessly between 10° and 30° enabling you to find your most comfortable showering position.

Product shown: Rainfinity overhead shower 360 3jet with wall connector (26234700) and wall outlet Porter 500 with shower holder and shower shelf left (26843700) in Matt White

NEW

Express your personality with FinishPlus

A splash of colour to give any bathroom individual character. Do you dream of adding or attaining consistency to your entire home's interior design? Do you see your bathroom as a personal refuge? Is sleek, modest elegance beyond chrome more to your taste? Be inspired by design options with our high-quality surface finishes.

Elegant contrasts

The on-trend colours of matt black and matt white wow fans of modern architecture. When used as a deliberate contrast, they add a certain *je ne sais quoi* to any room. They can also work very effectively when combined with dark wash basins or used to highlight the synergy of colourful details in the space. The elegant simplicity of our matt white and black taps will add the finishing touch to any bathroom with modern furnishings.

Modernity with a special sparkle

The premium metallic colours of polished gold, brushed black and brushed bronze perfectly combine elegance and modern flair. These bathroom head-turners create beautiful contrasts in dark bathrooms or in a bright setting. They can also be seamlessly combined with "industrial style" or elegantly plain walls and flooring to add your personal signature to bathroom design.

New FinishPlus Brochure

Discover a range of inspirational matt, brushed and polished colours in our new brochure. Please speak to your showroom consultant to request a copy.

Individuality with a splash of colour

Add character to your bathroom with new finishes for your basin, bath or shower. There is now the choice between chrome and five finish colours to give your bathroom a certain je ne sais quoi. Matt black and matt white are perfect for fans of modern architecture, while the premium metallic surfaces with polished gold optic, brushed black chrome and brushed bronze combine elegance with modern flair. Please speak to your showroom consultant for product availability.

Matt Black

Matt is the new black – matt black creates a bold contrast with light walls and accessories, while creating a high-end and extravagant look.

Product shown: Raindance Select PowderRain 240 showerpipe (88102122) and Talis E single lever basin mixer 110 (71710670)

Matt White

Bold with unconventional freshness – matt white neutrality blends seamlessly in bathrooms with subtle or fresh colour schemes.

Product shown: Square concealed valve with Raindance (300) overhead and Select rail kit (88102078), Metropol single lever basin mixer 110 (32507700) and Metropol single lever bath mixer floor standing (32532700)

Brushed Bronze

Harmony in gentle natural shades – the warm tone has very subtle nuances with its brushed surface. Brushed bronze can also be perfectly paired with natural shades.

Product shown: Metropol single lever basin mixer for concealed installation with spout 225mm (32526140)

Brushed Black Chrome

Striking and eye-catching – the subtle brushed chrome in black creates a distinct look. A dark and slightly reflective surface produces a sophisticated aesthetic.

Product shown: Raindance Select PowderRain 240 showerpipe (88102125) and Metropol single lever basin mixer for concealed installation with spout 225mm (32526340)

Polished Gold Optic

Add some glamour – the polished surface transforms the bathroom into a luxurious refuge. The shimmering surface adds an elegant shine to the setting.

Product shown: Talis E single lever basin mixer for concealed installation with spout 225mm (71734990)

We don't just keep up with technology - we pioneer it

Our innovative technologies are all about performance. To enhance the beauty of water and every aspect of your enjoyment.

From the big picture to the smallest detail, we welcome every opportunity to enhance your showering experience by integrating technical innovation wherever and whenever it will function best. The icons are here to introduce you to the latest hansgrohe advances. They are your guide to discovering just how much hansgrohe can enhance your comfort and enjoyment in the bathroom.

Less water, less energy, more enjoyment

EcoSmart technology reduces your water consumption by up to 60% without compromising on your showering performance. Thanks to a sophisticated flow limiter, special jets and integrated aerator, you not only save precious water but also the energy needed to heat it. That's good news for the planet and good news for your wallet too.

Soothing sensations

Introducing carefree showers. CoolContact prevents the thermostatic mixer from getting too hot and prevents painful scalding.

Comfort and convenience at your fingertips

One touch changes the waterflow. The shower or spray type can be switched on and off or changed with a simple click.

Limescale simply rubbed off in an instant

Remove limescale deposits simply by rubbing the flexible silicone nozzles.

More volume, more pleasure

Combines water with a generous amount of air. For a soft, splash-free water spray and rich, full shower drops.

Big performance, great experience

Evenly distributes the water over the large spray face to envelope the whole body.

The hidden magic behind our showers

The ultra-reliable, flexible device that is behind your shower's superb performance.

Comfort and control at your fingertips

In a hansgrohe shower, the water temperature is always just right so you can relax and enjoy its stimulating sensations from beginning to end.

A thermostatic shower mixer valve is a necessary part of a high-quality shower. Safe, automatic and efficient, it ensures maximum showering satisfaction whilst protecting you and your family from the risk of scalding.

What is a thermostatic shower mixer valve?

A thermostatic shower mixer valve maintains an exact water temperature throughout your shower. Should you wish to stop the water, it will automatically find the exact same temperature when you turn it on again. It protects you from any unexpected changes in the water supply to the shower, so even if somebody flushes the toilet or turns on a tap, the water temperature will stay the same.

How does it work?

The thermostatic shower mixer valve mixes the hot and cold water to your pre-selected temperature and reacts instantly to any changes in the pressure or temperature of the water supply by re-adjusting the mix of hot and cold water. Should there be a failure in your cold water supply, the thermostatic valve will automatically shut down.

hansgrohe thermostatic shower mixer valves are available for both concealed and exposed installations

Revolutionise your daily shower with PowderRain®

Nine out of ten consumers said they wouldn't return to their old hand showers after experiencing PowderRain®.*

Enjoy a new dimension in showering with hansgrohe PowderRain®. The fine droplets inspired by the rainforest provide a deeply relaxing showering experience.

A showering sensation

At the touch of a button, you will experience in an instant the velvety-soft sensation that is PowderRain. In place of one single spray outlet for each nozzle, PowderRain uncovers six ultra-fine openings that transform its generous spray into thousands of incredibly light micro droplets that gently fall on the skin without bouncing off.

Create a shower as individual as you are

Here's how to choose the right hansgrohe products for the kind of space you want to create. After all, your shower should be as individual as you are. Simply select and identify the shower configuration you need to achieve the style and set-up you prefer together with the quality performance and control you demand.

Concealed valve

Space-saving or sleekly minimalistic, a concealed valve hidden behind your tiling or wet wall fulfils the desire for a streamlined appearance by masking unattractive pipe work or fittings.

Attractive finishing options, engineered to last

The quality engineering and attention to detail of every hansgrohe product ensures peace of mind from installation to enjoyment. A passion for water and love of innovation means you can trust hansgrohe showering solutions to provide long-term performance and durability. Proven over generations, you will have a truly exceptional experience every time you shower.

Ceiling mounted overhead showers

Whether you're working with a compact and contemporary space or a large and luxurious one, you'll find a hansgrohe ceiling mounted overhead shower option to fulfil your needs. Modern or classic; square, round or soft cube; every model acts as a stylish focal point in any bathroom.

Exafill - bath filling without taps

For the bath inflow, waste and overflow, there is the modern hansgrohe alternative to the traditional set-up. The Exafill S unique RainFlow spray fills any bath smoothly and speedily and is never slowed by limescale deposits, thanks to its ingeniously built-in QuickClean technology.

Chrome finish

Our sophisticated, hansgrohe style is always in fashion, and engineered to stand the test of time.

Chrome and white finish

Our contemporary style that's perfect for hard water areas and made to last.

(Option available at no extra cost)

hansgrohe solutions

We've now made it easier for you to select your ideal shower, bathroom taps and mixers for washbasins, showers and bathtubs. On the following pages is a selection of stunning solutions that have been specially crafted by hansgrohe. Each one expresses perfectly the combination of function, performance and experience. Please visit your local stockist who will be able to create a bathroom solution specifically to suit your home and your needs.

- 36** Concealed valve with overhead shower and slide rail kit

hansgrohe: style on tap

Whether you prefer understated design, timeless elegance or something a little more unusual, hansgrohe gives you a dramatic diversity of styles. From cool contemporary to classic simplicity, all our taps are designed by the award-winning studio Phoenix Design and fulfil the most stringent requirements in terms of quality and usability. A selection of our taps feature EcoSmart and AirPower technology. EcoSmart will help save your water and money in the long run, whilst the AirPower feature mixes air into the water to make the jet feel pleasantly plump and indulgent.

Peace of mind from installation to enjoyment

The quality engineering and attention to detail of every hansgrohe product ensures absolute ease of installation.

A passion for water and love of innovation means you can trust hansgrohe showering solutions to provide long term performance and durability. Proven over generations, you will have a truly exceptional experience, every time you shower.

Selecting the right products

To discover which showering products will best deliver the exceptional showering experience you seek, it is important to identify correctly the system that is installed in your home. If you are unsure of the system or the water pressure it provides, please consult your professional installer.

Understanding your water system

Identifying the water pressure provided by your plumbing system will allow you to choose a showering product designed to work most efficiently within its parameters. Water pressure is the term used to describe the strength of the water flow through a pipe and is measured in bars.

Installation

Understanding your system's ability to deliver water is essential in order to match your chosen showering solution's performance. A qualified installer will have the knowledge and experience to help you achieve your desired result with the reassurance of exceptional performance in the years ahead.

Service and maintenance

Every hansgrohe product provides the added reassurance of a 5-year guarantee with the availability of spare parts also guaranteed for 15 years. All products professionally installed are designed to be serviced if necessary in situ.

Proud sponsor of UCI World Tour cycling team

Peter Sagan
UCI World Champion
2015/2016/2017

Gravity

Low Pressure - LP (0.2Bar)

- Cold water storage tank in the loft
- Hot water cylinder in property
- No shower pump installed

*All hansgrohe showers in this brochure require a pump if you have this system

Combination Boiler

Medium Pressure - MP (1Bar - 1.5Bar)*

- Combination boiler fitted providing hot water on demand
- No storage tanks in property
- No shower pump installed

*Pressure is dependent upon the age and size of the combi boiler plus the mains water pressure. A modern 28KW combi boiler will typically provide between 1Bar - 1.5Bar pressure.

Pump Assisted

High Pressure - MP - HP (1.5 - 3Bar Plus)

- Booster pump installed

When the gravity of water exceeds 0.61pm, this is known as 'Positive Head' (i.e. when a shower head is positioned below the cold water storage tank). In this situation a standard, or Positive Head, shower pump can be used. Please note, this is with the exception of our Select valves and mixers. These require a Universal pump to be installed.

A 'Negative Head' condition is when the gravity of water is less than 0.61pm (i.e. when a shower head is positioned above the cold water storage tank, e.g. in a loft conversion). In these conditions a universal head pump must be used. Please note, a Universal shower pump will work in both positive and universal head conditions. (i.e. where the shower head is either above or below the cold water storage tank). The correct pump will allow you to use any of the products featured this brochure.

Mains High Pressure

High Pressure - HP (1.5 - 3Bar)

- Unvented cylinder with an expansion cylinder
- No cold water storage tank in the loft
- Stored hot water
- Balanced Pressure
- Limited to Mains Pressure
